### **The CHC Alliance Welcomes Jason Cavanaugh as Chief Operating Officer**

**ORMOND BEACH, FL, May 1, 2024**—The CHC Alliance is pleased to introduce and welcome Jason Cavanaugh as Chief Operating Officer. As COO, Cavanaugh will be responsible for increasing companywide operational performance, driving the implementation of company strategy, and leading and scaling the company's growth and business operations by assisting The CHC Alliance in achieving efficiencies that contribute to faster growth.

Cavanaugh joins The CHC Alliance with over 19 years of healthcare experience as both a Revenue Cycle Manager (RCM) and Sales professional.

Jason most recently held the position of Senior RCM District Manager at AdvancedMD, an all-in-one cloud suite that enables medical offices to manage larger patient volumes while improving efficiency and financial results. This experience will be beneficial as he takes on his new post as COO for The CHC Alliance.

Cavanaugh co-founded The CHC Alliance with his wife, Meric, and formerly worked as the Regional Solutions Consultant for Kareo, a cloud-based platform designed to meet the unique needs of independent medical practices. He has significant expertise in medical billing, having worked as a Director of Revenue Cycle Management, a Client Revenue Manager, and the owner of Certified Claims Management, a full-service medical billing company.

Jason and his wife, Meric, live in Ormond Beach with their six children and several pets. They enjoy traveling and spending time with their family and friends.

This appointment comes at a time of significant growth for the company. Headquartered in Ormond Beach, Florida, The CHC Alliance is a medical consultation, billing, and credentialing firm with over 15 years of expertise working in the niche market of Federally Qualified Health Centers (FQHCs) and Community Health Centers (CHCs). By delivering expert advisory and management services that are specific to FQHCs and CHCs, they aim to help medical providers and health centers enhance their profitability while also increasing access to quality patient care. Their services include revenue cycle management, oversight of front and back-office billing operations, A/R analysis and recovery, software configuration, process and workflow optimization, hybrid revenue cycle development, and full-service provider credentialing.
